Bangladesh University of Business and Technology

Tenders Schedule

Sealed Tenders are invited from the bonafide Manufacturer / Importers / Distributors / Suppliers for supply & installation of Server as per the following specifications, terms and conditions:

Sl. No.	Description	Quantity
1	Supply, Installation, Testing & Commissioning of Server for BUBT	01 Unit
2	Agency/Office	Office of the Registrar, BUBT
3	Procuring entity Name	Bangladesh University of Business and Technology (BUBT)
4	Procuring entity District	Dhaka, Bangladesh
5	Invitation Ref. No.	BUBT-Reg-1562-08-26
6	Date	16-08-2026
7	Procurement Method	Open Tender
8	Budget and Source of Fund	BUBT's Own Fund
9	Tender Package No.	BUBT/02/2026
10	Tender Package Name	Procurement of Supply, Installation, Testing & Commissioning of Server for BUBT
11	Tender publication Date	20-08-2026
12	Tender Last Selling Date	31-08-2026
		Time: 03:00 pm
		Date
		Time
13	Tender Closing Date and Time	02-09-2026
		02:00 pm
14	Tender Opening Date and Time	02-09-2026
		03.00 pm
15	Warranty, Service period	Must be mentioned in the tender/quotation.
16	Supplying Duration	Must be supplied within 30 (thirty) days.
17	Vat and Tax	The quoted price must be inclusive of VAT and Tax as per BD Govt. rules.
18	Payment	Payment will be made by A/C payee cheque after successful commissioning and obtaining quality report.
19	Name & Address of the Office	Office of the Registrar, Bangladesh University of Business and Technology(BUBT),77-78,MainRoad,Rupnagar,Mirpur-2, Dhaka-1216, Bangladesh
20	Brief eligibility and qualification of Tenderer	a) Any Bangladeshi tenderer with minimum 03(three) years of related business experience. b) Specific experience as supplier in supply of Data Center and Server equipment of at least 02 (two) contract successfully completed within the last 03 (three) years, each with a value of at least Tk. 50,00,000/- (fifty Lac).
21	Brief description of related service	The work includes the supply, installation, configuration, testing, and commissioning of server
22	Price of Tender Document(Tk.)	Tk.1,000/-(one thousand)only. (nonrefundable)
23	Earnest Money	15,000/-(Taka fifteen thousand) will be enclosed with the tender schedule. It will be issued by a schedule bank in the form of pay order in favor of BUBT.
24	Security Money	5% of total bill will be kept as security money for 03 months.
24	Contact person for information's	Mr. Easeen Patwary, Sr. Network Engineer, Mobile: 01816-168229.
25	Name of Official inviting tender	Dr. Md.Harun-or-Rashid
26	Designation of Official inviting tender	Registrar
27	Contact details of official inviting tender	02-48036351-3(Ext.-120), E-mail:procurement@bubt.edu.bd

The procuring entity reserves the right to accept or reject all submitted tenders.

Product Specification

Sl. No.	Name of Items	Detail Required Specification	Quantity	Total price in BDT.
1	Brand	Brand to be mentioned by the bidder		
2	Quality	ISO 9001:2015 for the manufacturer, CE certification for quality assurance.		
3	Model	To be mentioned by the bidder		
4	Country of Origin	USA/EU		
5	Manufacturing Country	To be mentioned by the bidder		
6	Form Factor	2U Rack Mountable Server with Rail Kit,		
7	Processors	Should be provided with min. 2 x Intel Xeon (6 th Generation), Processor, 2.4GHz 24-core Processor or Higher.		
8	No. of Processor	02 (Two)		
9	Cache L3	Minimum 144MB or Higher		
10	Chipset	Intel Chipset compatible with the offered processor		
11	Memory	Minimum 128GB (4x 32GB Dual-Rank) DDR5 6400MT/s memory. Memory should be upgradable up to 4TB without replacing memory modules.		
		Server must have minimum 32 DIMM slots.		
		Each offered memory module shall not be less than 32GB.		
		The server offered must support memory protection features as below- • Advanced ECC for single device data correction to detect and correct single and all multi-bit errors that occur within a single DRAM chip. • Adaptive Double DRAM Device Correction (ADDDC) • Memory Mirroring for full memory redundancy.		
12	Storage array controller	Integrated Hardware RAID controller with 8GB cache supporting RAID 0, 1, 10, 5, 6, supporting SAS/SATA/NVMe devices without consuming PCIe slots.

Sl. No.	Name of Items	Detail Required Specification	Quantity	Total price in BDT.
13	Internal Storage	Shall be provided with a minimum 6 x 2.4TB SAS 12G 10K RPM hot-pluggable HDD (8TB usable after RAID5 with 1 spare drive). Shall be provided with 2 x 960GB NVMe SSD within RAID1 for OS boot. Shall be provided with 8 x 2.5-inch drive bay slots and future upgradable up to minimum 24 drive bay slots.		
14	Power supply and Fan kit	Redundant & fully provisioned; minimum 6 hot pluggable fans and 2x 800W Platinum Power supply should be provided.		
15	Network Card	Server should be provided with- 1x 4-port 1G adapter. 1x 2-port 10G Base-T adapter.		
16	Expansion Slot (PCIe)	Shall be provided with minimum 3 PCIe 5.0 slots from day1 and upgradable up to 8 PCIe 5.0 slots.		
17	GPU Support	Server must support at least quantity 3 of double-wide GPUs or quantity 8 of single-wide GPUs.		
18	Embedded Remote Management and firmware security	Server should have a dedicated 1Gbps remote management port with advanced/enterprise license/subscription. Server should have security dashboard: displaying the status of important security features, the Overall Security Status for the system, and the current configuration for the Security State and Server Configuration Lock features.		
19	Firmware security	For firmware security, system should support remote management chip creating a fingerprint in the silicon, preventing servers from booting up unless the firmware matches the fingerprint. This feature should be immutable . Should maintain repository for firmware and driver's recipes to aid rollback or patching of compromised firmware. Should also store Factory Recovery recipe preloaded to roll-back to factory-tested secured firmware		
20	Server Management	Software should come with a dashboard view to quickly scan the managed resources to assess the overall health of the data center. It should provide an at-a-glance visual health summary of the resource's user is authorized to view.

Sl. No.	Name of Items	Detail Required Specification	Quantity	Total price in BDT.
		Local or Directory-based user accounts with role-based access control		
		The Server Management Software should be of the same brand as the server supplier.		
		Single management interface across compute, storage, and networking		
21	System Security	- Trusted Platform Module 2.0 must be provided. - Commercial National Security Algorithms (CNSA) - Secure Recovery - recover critical firmware to known good state on detection of compromised firmware - FIPS 140-3 Level 3		
22	Hypervisor & Operating System Support	Shall support the below operating systems and hypervisors - Microsoft Windows Server - Red Hat Enterprise Linux - SUSE Linux Enterprise Server - VMware ESXi - Canonical Ubuntu - Oracle Linux and Oracle VM - Citrix		
23	Warranty & services	• 3 Years of collaborative warranty with Next Business-Day 9x5 support. Any incident occurring outside this window will be attended on the next business day.		
24	Server License	• Windows Server 2024 (with Licensed Key)		
		VAT & Tax		
		Total price in BDT.		

Terms and Conditions:

The work includes the supply, installation, configuration, testing, and commissioning of a server at Bangladesh University of Business and Technology (BUBT), Rupnagar, Dhaka. The scope of work shall include:

- Supply of brand-new server hardware, accessories, mounting kits, power cables, and all required components.
- Installation of the server in the designated rack and connection to power and network infrastructure.
- Configuration of server hardware, RAID, storage, BIOS, firmware, and operating system as per BUBT requirements.
- Integration with the existing network and server environment.
- Testing of server performance, hardware health, network connectivity, storage functionality, and system stability.
- Commissioning and handover of the fully operational server to BUBT.
- Provision of all necessary licenses, documentation, warranty certificates, and user manuals.
- Conducting basic operational training for the concerned IT personnel.
- Rectification of any defects identified during the testing and commissioning period.
- Submission of test reports and commissioning certificates upon successful completion of the work.
