## Notice Regarding Proper Use, Operation, and Maintenance of Air-Conditioning (AC) Facilities

(for all faculty members, officers and staff)

All Faculty Members, Officers and Staff of Bangladesh University of Business and Technology (BUBT) are hereby informed that, as per the direction of the BUBT Authority, the proper and responsible use of Air-Conditioning (AC) facilities across the University premises must be strictly ensured.

The AC facilities are essential for maintaining a comfortable working environment. Proper use and timely maintenance of these facilities are also necessary to prolong the lifespan of the equipment, reduce unnecessary electricity consumption, prevent avoidable damage and malfunctions, and minimize utility and maintenance expenses.

In this regard, all concerned are hereby instructed to strictly comply with the following directives:

1. AC units shall be operated properly and only when necessary.
2. AC units must be switched off immediately after use and before leaving the respective room, office, laboratory, or other area. No AC unit should be left running in an unoccupied room.
3. Doors and windows of air-conditioned rooms must remain properly closed while the AC is in operation to ensure efficient cooling and prevent unnecessary energy consumption.
4. Unnecessary, excessive, or negligent use of AC facilities must be strictly avoided. Such practices may cause damage to the equipment, increase the frequency of technical malfunctions, consume excessive electricity, and result in avoidable utility and maintenance expenses.
5. Any technical problem, abnormal operation, or malfunction of an AC unit must be reported immediately to the Engineering & Maintenance Division through the prescribed channel. No individual shall attempt to repair, adjust, dismantle, relocate, or otherwise interfere with any AC unit independently.
6. All concerned are requested to exercise due care and responsibility in the use of AC facilities and to ensure that the equipment remains in proper operating condition.
7. Negligence, misuse, unauthorized interference, or failure to comply with these instructions may be viewed seriously and may result in appropriate/strict administrative action by the BUBT Management.

## **Servicing and Maintenance of AC Units:**

Furthermore, the servicing and maintenance of all AC units across the BUBT campus will commence shortly and will be carried out in phases under the supervision of the Engineering & Maintenance Division.

All Faculty Members, Officers, and Staff are requested to extend their full cooperation to the Engineering & Maintenance Division and facilitate necessary access to their respective rooms, offices, laboratories, and other areas whenever required for inspection, servicing, repair, and maintenance of the AC units.

All concerned are requested to take these instructions seriously and ensure strict compliance in the interest of efficient energy management, proper maintenance of University facilities, and the overall institutional interest.
